

Playgroup: Paper

16 April to 8 July 2018

Week One and Two:

Encounters with Paper

Week Three and Four:

The Sounds that Paper Makes

Week Five and Six:

Paper meets Nature

Week Seven and Eight:

Paper, Mirror and Light

Week Nine and Ten:

Paper in 3D Forms

Week Eleven and Twelve:

Properties of Paper

Inspiration: Paper

This weekly Playgroup series takes children on a voyage through the multiple possibilities offered to us through exploring the world of paper.

The choice for Paper to inspire this upcoming Playgroup series centres on the unlimited opportunities for our team to provide children with meaningful, inspiring, creative experiences rich in learning potential.

Paper is an open-ended material, that provides us with opportunities to explore mark making, sound, light and shadow, textures and reflections taking children on a journey rich in learning potential from fine motor skills, early literacy exposure and a multitude of sensory explorations.

Parents may encounter ways paper can be used at home to further support children's natural curiosity and desire to connect with materials and use them in increasingly creative and interesting ways.

Our Atelier Facilitators will develop children's experiences each week, whilst offering opportunities to repeat some of the experiences and try new ways of approaching things. This supports the development of a sense of security and connection throughout the programme and also a chance to re-test our theories and deepen our initial understandings.

Join us as we challenge our understanding of the many possibilities paper offers us to drive our learning and be inspired!

Welcome to Playgroup

Infant & Toddler Ateliers

6-12 months

Our 6-12 month Playgroup sees the sharing of first moments and experiences, nurtured by our team of specialists who are seasoned at supporting children in developing secure relationships, so critical at this early age. Through the exploration of open ended experiences, infants discover the world around them fully engaging all of their senses. Every sight and sound is planned with intention to develop awareness, of people and place, of bodies and of space.

12-36 months

Now, curiosity beckons, along with a stronger desire to build relationships and explore alongside others. At this age your child is gaining control over their movements and begins to respond to, absorb and mimic sounds, actions and experiences which are of interest to them. Our facilitators provide access to a range of enabling materials that foster the development of physical skills, risk taking and confidence in the ability to use their body whilst investigating and negotiating space. We also encourage the use of open ended speech to provoke meaningful thought in both parents and children incorporating language into every experience. At this age a child's understanding of themselves and the world around them is also evolving. Passion fuels interest for or in experiences, objects or concepts seeing our specialists provide the opportunity to collaborate, communicate and problem solve. Self-expression becomes a primary motivation and we structure our environment and materials to allow for evolving individuality, self awareness and an understanding of the similarities and differences between themselves and those around them. Your child's unique voice is emerging and our team continue to listen, interpret and support your child's discoveries and feelings about the world around them.

Rate Card 2018

1 Term of 12 Consecutive Playgroup Weeks
Attending one class per week (12 classes)
\$480

1 Term of 12 Consecutive Playgroup Weeks
