

# Discover “First” Wonders

## Special 6 Class Series

Enjoy “6 weeks of wonder” and discover our world, light, sound and sensory explorations, movement and more! This tailor made series is designed to provide infants with important “firsts”; first discoveries of what they can do, how things look and feel and the first opportunity to begin to wonder about the world around them...

### Week 1: Squish and Squash

With a squish and a squash, children are taken on a journey of sensory experiences evoking their sense of touch. From rough and grainy moon sand to soft and squishy jelly play - what am I touching?....

### Week 2: What is that sound?

At this stage of development, children begin to explore 'cause and effect'. They respond and investigate to find the source of different sounds, identifying and creating new ones as they bang on a pot, work with bells and explore movement and sound through instruments.

### Week 3: Light and Reflection

Children are naturally inquisitive and curious about how all the things around them work. Who is that in the mirror? What's that shiny object? What's creating that shadow on the wall? Come explore with us as we let curiosity reign using mirrors, light tables and projectors to encourage inquiry, investigation and theory testing...

### Week 4: Commotion in the Ocean!

Dive with us this week into the deep blue sea as children are led on a special storytelling journey including sensory play using Giles Andreae's exciting story "Commotion in the Ocean" as our inspiration.

### Week 5: Gong Xi Fa Cai - Celebrating the New Year!

We enjoy the full colour and life of this special time of year this week as we embrace the celebrations surrounding the Chinese New Year. We will investigate the cultural associations of this festival with visual projections, songs and dance, sensory play and even an area of dress up fun! Gong Xi Fa Cai!

### Week 6: Mother Nature's Wonders

In our final week, we explore the wonders of the world, filled with bright and colourful florals and fruits, pinecones, coconuts husks, seeds, pods and so much more! Come and explore our wondrous world with us.

## All the Details

Who: 6 - 18 month olds

When: 11 January to  
15 February 2019

Time: Fridays 11:15 - 12:15pm

Where: Turf City AND  
UE Square locations

\$240 per 6 class package  
Includes 1 Drop In Session

\*redeemable from 6 or 12 class packages
