Week Nine: The Sounds of Plastic Week 2

Week Ten: Plastic With an Imaginative Twist

Week Eleven: Plastic With ANOTHER Imaginative Twist

Week Twelve: Plastic Meets it's new partner Metal

Plastic "Re-imagined"

Our weekly Playgroups offer families an opportunity to initiate routine and support your child in making social connections. Children grow in confidence, joining their class group at the same time each week, with our team of experts leading families on a journey that builds upon the previous weeks discoveries. Our Playgroups take children on a sensory journey through sight, sound, touch, scent and even taste.

Our Jan to March 2021 Playgroup centres on investigations surrounding the open-ended resource of plastic. Each week, we'll present children with new ways to connect, explore and work with plastic, exercising all the senses, inviting curiosity and allowing us to question, wonder, test and challenge our theories.

We look forward to having you join us for this exciting 12 week exploration.
